SELECTMAN'S LETTER

One of the most frustrating things that a Selectman or any other public official can hear is for someone to say that they didn't know about certain town issues; because there is only one reason for them not to know, and that is usually they couldn't be bothered to become informed.

The State of New Hampshire has a very comprehensive right to know law. All meetings are open to both the public and the media and they must be duly posted. The only exception to this is in matters of welfare, discussion of personnel, and confidentiality of attorneys and their clients, when discussing certain town matters that must remain quiet until their disposition. These matters are discussed in Executive Session, usually after our regular meetings. There are times when we must call a special Executive Session of the Board. Those times are posted on the bulletin board so that anyone interested will be aware of actions taken. If a vote is required in Executive Session, the issue will go back into the regular meeting where the votes will be taken before the public and recorded.

This past year, the Budget Committee held its usual member of meetings, one of them being the general government budget. This meeting was duly posted, as were the rest of the budget meetings. When we discussed Building Maintenance, \$10,000 was earmarked to raze the Mott summer house and landscape the cellar hole. Not one member voiced objections, and it was so voted.

Also, in last years Town Report, page 5, the sixth paragraph reads, and I quote "Our general government budget we have proposed and received the full support of the Budget Committee to appropriate funds to raze the Fox Point Manor House. After inspection and review of costs it was determined that to restore the building for public use would be cost prohibitive."

The Town Meeting which I and many others took the time to attend on a beautiful Saturday afternoon voted the town budget. The meeting was concluded and in effect the selectman, and other boards had their orders to get on with the town's wishes and business.

The Fire Department was contacted and asked to have a controlled burning of the Mott building which gave them invaluable hands on training. They conducted several burnings throughout the summer.

In September a petition was presented to the Selectman, signed by many who could not be bothered to attend the aforementioned town meeting, seeking an injunction to stop the burning of the building and to save the structure pending further action of the court. The injunction was granted.

The time has come again, and we hope you will vote as you did last year, and that your wishes under this preset form of Democracy (Town Meeting) will be respected.

The reason for this lecture is to make you the citizens (the Governing Body) of the Town acutely aware of the seriousness of your function concerning the well being of our town. The Mott house issue is a relatively minor one, but the Town does face some very complex and serious decisions in the near future. For example: In regard to the disposition of Pease AFB, it is quite possible that some of the Pease Development Authority decisions are going to be devastating to Newington, and we must be alert to their motives and actions if we wish to preserve our way of life. Newington, like any other town in southern New Hampshire has its problems, some of ours being in the form of litigation. Re: Public Service, Coakley Landfill, Fuel Storage Corp., etc. Other problems that face us are costs of upkeep of the Lamprey Regional Solid Waste Cooperative, possible Revaluation in the very near future, and Trash Recycling to name a few.

In closing the Board of Selectmen wish to thank all of the various boards, committee and departments, who have carried out their duties and met their responsibilities so well this past year.

Paul Kurt
Chairman

J. R. Lebel
CERTIFIED PUBLIC ACCOUNTING

54 Court Street
Portsmouth, NH 03801
603-436-8110

Selectmen
Town of Newington
Newington, NH 03801

I have examined the combined financial statements of the Town of Newington, New Hampshire, and its combining and individual fund financial statements as of and for the year ended December 31, 1989. As part of my examination, I made a study and evaluation of the Town's system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such evaluation is to establish a basis of reliance on the system of the internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

My study and evaluation of the system of internal accounting control was made for the purpose set forth in the paragraph above and accordingly would not necessarily disclose all weaknesses in the system because it was based upon selective tests of the accounting records and related data. As a result of this study and evaluation, I have noted no particular areas where improvements can be made to strengthen the system of internal accounting control.

At this time I wish to thank the Town officials, especially Mrs. Pat Main and Mr. Norman Myers, for the cooperation and courtesy shown my staff during the course of the engagement.

Portsmouth, New Hampshire
June 1, 1990

LANGDON LIBRARY ANNUAL REPORT 1990

The Library had a good year with over 4,700 items being circulated and 1,075 people using the library for reading, research and story hours. We added 590 items to our collection in 1990. A new door in the children's room was an important building improvement this year.

Our hours are:

Wednesday	Winter 1-5:30p.m.	Summer 1-5p.m.
Thursday	Winter 1-6:30p.m.	Summer 1-6p.m.
Friday	Winter 1-6p.m.	Summer 1-5p.m.
Saturday	Winter 11a.m.-6p.m.	Summer 11a.m.-5p.m.

Telephone: 436-5154

Trustees: Christine Beals (C)
Patty Borkland
Libby Smith

Meetings of the trustees are held the first Thursday of each month at 3:00p.m. in the Library. The public is welcome.

PROGRAMS

AND

SERVICES: School Library, twice monthly during the school year on Wednesday mornings-Grades K-6

Newington Neighbor articles, reports and notices received for publication.

Quick Inter-Library loan service.

Book buying for patrons, a large paperback book collection, a large print book auction, many magazine subscriptions passes to the Children's Museum in Portsmouth.

All book donations are gratefully accepted and will either be accessioned or sold for the library's benefit.

Sincerely,
Duane E. Shaffer
Library Director

Combined trust earned \$4,712.36 (12.056%)

There are 87 individual trusts

\$39,086.82 / \$50.00 = 781.7364 shares

\$4,712.36 / 781.7364 = \$6.0281 per share

REPORT OF THE PLANNING BOARD

During 1990, the Planning Board received four applications for land subdivision. All four applications were for land located in the town's residential district.

These four applications proposed a total of six new building lots. Three lots were approved (Goldsmith/Drake and Mullen/Nelson), one was withdrawn (Watson), and two are currently pending (Berounsky). All but the Watson proposal are located in South Newington.

The Planning Board received two requests for lot line adjustments in the Business District. One request was granted (HRE Properties), and one was withdrawn (Mo Wong).

The Board reviewed ten site plans for non-residential development in the business and industrial districts. These sixteen applications (4 subdivisions, 2 lot line adjustments, and 10 site reviews) represent a decline compared to the 19 applications in 1989, 24 in 1988, and 32 in 1987.

Site plan approvals included a boiler plant at Sea-3, two expansions at Neslab, a 12,000 gallon additive tank at Mobil, relocation of a fuel storage tank at Great Bay Fish, a propane/natural gas mixing facility adjacent to Domtar, a bank at the former Souter & Egan site (Nimble Hill Road & Spaulding), and "Red Lobster" restaurant on Woodbury Avenue between the malls.

A proposed parking lot expansion at the Asia Restaurant was withdrawn, as was a proposed bulk cargo facility for the Mahoney property adjacent to Great Bay Fish. A proposed 55,000 square foot shopping center between the malls is still on hold (this application dates to 1987), pending wetlands approval from the Army Corps. of Engineers.

The closing and redevelopment of Pease AFB continues to draw a great deal of the Planning Board's time and attention. Issues that are being monitored very closely include aircraft noise, air pollution, traffic congestion, groundwater contamination, endangered plant and animal species, the proposed Wildlife Refuge west of McIntyre, acquisition of the Town Forest and Stone School, and the impact of redevelopment on the Newington taxpayer.

As always, the Planning Board welcomes your questions, comments, and suggestions.

Respectfully submitted,
Marlon S. Frink, Chairman

BOARD OF ADJUSTMENT 1990

Taccetta Chevrolet requested a variance from the Front Yard Setback to install a free standing sign. Variance was granted on condition that new sign be no closer to the front line the other free standing signs on the lot and that the new sign replace one of the present signs keeping the total number the same.

Capital Plumbing, Patterson Lane, requested a variance from the Front Yard setback requirements to allow installation of a free standing sign. Variance was granted on condition that the sign be no closer than 15 feet from front line and 10 feet from side line.

Henry Berounsky requested a variance from frontage requirements to allow construction of a residence on his property on Newington Road. Variance was granted on condition that the present dwellings be removed to prevent violation of requirement for only one building per lot.

Sea-3, Avery Road requested a variance from the rear lot line requirements to construct an accessory building to house a boiler. Variance was granted.

Heirs of Florence Watson requested a variance to construct a residence on a lot of 32 acres with only 25 feet of frontage on Nimble Hill Rd. Variance was granted on condition that only one residence be constructed and all of the Town Wetlands Ordinance be adhered to.

First N.H. Bank of Exeter was granted a variance from the Newington Wetlands Ordinance to allow construction of a driveway across two small areas of poorly drained soils on the former Nelson property.

Stillman Packard was granted a variance for a lot on Fox Point Rd with 175 feet of frontage where 200 feet are required.

H.R.E. Properties (Newington Park) was denied a request for a variance to allow increased retail use where retail use is prohibited.

Phillip E. Toomire
Chairman

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

Annual Report

The Lamprey Regional Solid Waste Cooperative has just completed 10 years of service to the member communities. In 1990 the Cooperative reduced the operating budget by \$300,000.00. This reduction was due to an austerity program that has been implemented by the Cooperative to keep costs down within the member communities to dispose of municipal waste. We have initiated a new committee from within the Lamprey Board of Directors to study the long term planning of the Regional. This committee should be able to give the Board of Directors some recommendations in 1991 as to the direction the Regional should be headed for our future in the disposal of municipal solid waste. 1990 was a very uncertain year for the Lamprey Regional due to the economic times everyone is faced with, but we were able to function well with the cooperation of the member communities. We also have completed 15 months of operation of our secure ash sludge landfill in Somersworth.

Respectfully,

Joseph Moriarty
Chairman of the Board

ACTION TAKEN ON WARRANT

TOWN MEETING 1990

- Article 1Election of Officers.
- Article 2Voted to increase the optional Veterans Exemption from \$50 to \$100.
- Article 3Voted to increase the optional Service Connected Total Disability exemption from \$700 to \$1,400.
- Article 4Voted to change the position of Highway Agent from Elected to Appointed by the Board of Selectmen.
- Article 5Voted to exclude from Social Security, services performed by election officials when less than \$100 in a calendar year.
- Article 6This Article re: Buildings in Historic Zone was tabled as being redundant.
- Article 7This Article re: Purchase of Cemetery Lots was tabled for further study.
- Article 8Voted to rescind the action taken in March 1981, and allow the Town Clerk to accept voter registrations.
- Article 9Voted to amend the Newington Sewer Operations Ordinance.
- Article 10Voted to adopt the N.H. Smoking Rules for enclosed public places.
- Article 11Voted to authorize the Selectmen to receive and expend grants that may become available.
- Article 12Voted to leave the care and maintenance of Land & Buildings to the Selectmen.
- Article 13Voted to authorize the Selectmen to dispose of any real estate acquired through tax collectors deeds.
- Article 14Voted to allow the Selectmen to hire money on credit.
- Article 15Voted to expend interest from investments of sewer revenues to offset Sewer budget.
- Article 16Voted a budget for all town expenses of \$2,717,988.
- Article 17Heard the Moderators report on the election of Officers.

1990 FIRE DEPARTMENT ANNUAL REPORT

The year of 1990 shows a decrease in fire calls by 11% over 1989. The Fire Department responded to 196 calls. The following is a breakdown of the calls by district:

17%	to the Industrial District
18%	to the Business District
24%	to the Fox Run Mall
9%	to the Newington Mall
13%	to the Residents
8%	for motor vehicle accidents
3%	for Boat Rescues
8%	for mutual aid request.

On July 4, a young Humpback whale was spotted in the area of Great Bay Marina. It was noticed that this animal had some fishing gear wrapped around it's nose. The Fire Department Boat was requested to assist in a rescue effort. During the rescue effort, the fishing equipment appeared to have dropped off and the boat, along with many private boats, escorted the whale back to the mouth of the Piscataqua River.

As Pease Air Force Base closes, the Fire Department has lost a large percentage of it's active force. This lost is noticeable during the day-time hours with a lack of personnel in and around the Town. The department during 1990 has hired it's third full time employee.

The Boy Scouts of America, Explorer Post 933 is alive, but is in need of new members. The Post has just enough members to keep the charter active, but if no new members join by next September, the charter may be cancelled. I do wish to thank the Explorer Post for it's help during the past year, and hope it will be active at the end of 1991.

I wish to thank all of the Firefighters for their time and effort in protecting the lives and property of the taxpayers within the boundaries of the Town of Newington. I wish, also, to thank these same people for their time in attending various training classes, both at the Fire Station and throughout the State, in an effort to improve their skills as Firefighters and Officers.

As a final note, I wish to remind the Town residents that the Fire Department is available for public assistance calls, as well as for emergencies. We are here to serve you.

Respectfully submitted,
Larry Wahl, Fire Chief

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

During calendar year 1990, the State of New Hampshire experienced an average number of wildfires. The three leading causes of these wildfires were fires kindled without a fire permit from the Forest Warden, permit fires that escaped control and rekindled fires. All of these fires are preventable, but ONLY with your help.

Please help your town and state forest fire officials with forest fire prevention. New Hampshire State Law (RSA 224:27 II) requires that, "No person, firm or corporation shall kindle or cause to be kindled any fire or burn or cause to be burned any material in the open, except when the ground is covered with snow, without first obtaining a written fire Permit from the Forest Fire Warden of the town where the burning is to be done."

Violations of RSA 224:27 II and the other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$1,000 and/or a year in jail and you are also liable for all fire suppression costs.

The State of New Hampshire, Division of Forest and Lands assisted many towns in wildlands fire suppression during 1990, including a 262 acre fire in Moultonboro and several fires in Hooksett.

In 1990, the New Hampshire Division of Forest and Lands trained 844 local Wardens and Deputy Wardens in the Incident Command System (ICS), an incident management system for all types of emergencies. In 1991, Wardens will be trained in the use of Class A foam in wildfires suppression.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Warden, State Forest Ranger, or Division of Forest and Lands at 271-2217.

FOREST FIRE STATISTICS - 1990

	STATE	DISTRICT	TOWN OF NEWINGTON
Number of Fires	489	53	2
Acres Burned	473	34	0
Lee Gardner, Forest Ranger, Larry Wahl, Town Forest Fire Warden			
Richard Spinney, Deputy Forest Fire Warden			

1990 AMBULANCE ANNUAL REPORT

The year of 1990 shows a decrease in Ambulance calls by 10% over 1989. The Ambulance responded to 305 calls. The following is a breakdown of the calls by district:

4%	to the Industrial District
21%	to the Business District
15%	to the Fox Run Mall
8%	to the Newington Mall
15%	to the Residents
10%	for motor vehicle accidents
1%	for Boat Rescues
26%	for mutual aid requests.

The Ambulance does provide a transfer service for the residents of Newington, and this service was called upon 10 times. It is a privilege to provide this service for the residents.

During the year the Newington Fire Fighters Association, by collecting of donations, has purchased a DEFIBRILLATOR unit, and late in the year the DEFIBRILLATOR was placed on the Ambulance.

One member of the Ambulance personnel, has received the proper training, and is qualified for intravenous procedures. It is the hope of the Department that more of the members will take this course when it becomes available.

The two previous paragraphs are considered Advanced Cardiac Life Support for the pre-hospital providers.

I would like to take this opportunity to thank all Ambulance personnel for their unselfish contributions to the Town of Newington, by sacrificing their time to service on the Ambulance. Each of these members has been trained to at least the basic level of Emergency Medical Technician (EMT), and they continue to attend classes and seminars to improve their skills for Prehospital Care. This has helped in opening lines of communications for the ambulance attendant with the Emergency Department staff. The members of the Newington Ambulance have constantly received praises from the local hospitals, for their care of the sick and injured.

Once again, I wish to thank the members of the Ambulance service, for their time and effort in providing quality pre-hospital care for the Town of Newington.

Respectfully submitted,
Larry Wahl, Ambulance Director

NEWINGTON POLICE DEPARTMENT

1990 ANNUAL REPORT

During 1990, the Police Department recorded 140,102 miles on our vehicles and received 2,588 complaints or calls for assistance. Investigation by the Department's officers included 602 criminal cases, 4 missing persons and 20 animal complaints.

In the area of highway safety, efforts of our officers resulted in 61 motor vehicle arrests, 746 summonses, 1,311 motor vehicle warnings and 131 defective equipment contacts. Officers assisted 267 motorists while on routine patrols and rendered assistance to other law enforcement personnel on 470 occasions. During 1990, there was one fatal accident, 196 property damage accidents and 16 personal injury accidents reported—a decrease of more than 18 percent over the previous year.

Police activity resulted in 1,109 cases being prepared for the Portsmouth District Court or the Rockingham Superior Court.

The Department's prevention and service program resulted in 7,941 building checks and 70 escorts being made. The Department investigated 280 burglar alarms, responded to 70 fire calls and assisted in 56 ambulance calls.

During 1990, 21 motor vehicles were reported stolen from Newington and 8 were recovered. Additional property valued at \$256,307 was reported stolen from Newington, while recovered property totaled \$19,780.

1990 saw the D.A.R.E. (Drug Abuse Resistance Education) Program come to Newington. Officer Michael Sullivan attended training classes and, after passing a comprehensive qualification program, became a certified D.A.R.E. instructor. In cooperation with the Newington Elementary School staff, he has arranged to begin the 17-week program for all K-6 students with emphasis on grades 5-6. The police Department believes that this program is essential and stands committed to its successful presentation.

Economic down-slides are usually accompanied by an upswing in various crime categories and we anticipate that 1991 will be no different. We thank each of you for your past support and appreciate your continued assistance in making Newington a safer place to live.

We encourage you to visit the Police Station to ask questions and to expect our officers to provide high quality police service to you and the entire community.

Respectfully submitted,

John K. Stimson, Chief

HISTORIC DISTRICT COMMISSION

During 1990, the Newington Historic District Commission met regularly to pursue several important preservation projects.

During the fall, old private graveyards were located, marked with signs and recorded for the town maps. Several of these sites are well maintained by the industrial owners, such as Federal Express, Sea-3, and Denault or by private property owners. Other known grave sites which are abandoned need repair to the markers and clearing of undergrowth. The discovery this year of additional private grave yards makes it important that property owners assist the HDC in locating abandoned burial sites.

During the winter, members of the Commission and the Historical Society have worked to catalogue and to store old town documents in acid-free folders. These documents will be kept at the Old Town Hall for historical research when renovations are completed to that building.

Of special interest this year was the opportunity to tour the remainder of the Newington Old Town Forest on base property. This property, once under high base security, was viewed for the first time in 39 years, by members of the NH Preservation Office, the Newington Planning Board, the Historic District Commission and the Conservation Commission. It was very impressive to learn about the effort the Air Force has made to maintain the forest management of the forest and to preserve the integrity of this historic resource for Newington. The Commission has been working with a preservation researcher, the NH Preservation Office, and the forestry staff at Pease Air Force Base to document for the National Register of Historic Places that section of the Old Town Forest residing on base property.

With the active interest and the assistance of Historical Society members and other interested volunteers, several important tasks continue for the Historic District Commission. Increased concern about the development of an Airport District at Pease has made documentation and preservation of local historic sites imperative. Increased community awareness of Newington history has made the development of historic research materials a desirable town need. The Newington Historic District Commission wishes to continue an active role in providing assistance to the community for historic research and preservation needs.

Barbara D. Hill
Newington Historic District Commission

NEWINGTON HISTORICAL SOCIETY

Volunteers again hosted the Thursday Open House at the Old Parsonage from July through mid-September. Many visitors had not seen it since the restoration. One, who had been active during a former renovation of the forties, remarked, "I think it's wonderful." Those volunteering deserve special thanks for all their time and effort to keep the house open for public viewing.

This year it will be new curtains for the Old Parsonage and, thanks to Mary Jean Scholl, a reupholstered parlor chair.

The exciting project for the coming year is the continued renovation of the Old Town Hall for a museum. The work began last summer with the removal of the old carpeting. Robert Silver, the school custodian, and Dick Rines have accomplished wonders so far, removing the petitions put in by the Police Department. Visualize the old schoolroom on the lower floor emerging as a showroom for antiquity. The room to the left of the entrance will be reserved for special documents, family records and photographs. These will be available for research and for people interested in Town history. When the museum is ready, it will be the ideal spot for placement of those special papers you don't know what to do with but don't want to discard. You will hear more about this later.

With both the Old Parsonage and the Museum open this summer, we anticipate more activity and again solicit help from volunteers. The "chore" of Open House can be a rewarding and satisfying experience. The United States Air Force is "monitoring" the well by the Old Parsonage

Officers for 1990-91: President, Dorothy Watson; Vice President, Doug Reed; Secretary, Winnie Welch, Treasurer, Barbara Hill, and Program, Barbara Myers and Margherita Mazeau.

Our appreciation is expressed to the previous officers, Barbara Myers, Ruth Fletcher, and Margherita Mazeau, who have been the real backbone of this Society.

Your president feels especially indebted to the past president, Barbara Myers. As the proverbial saying goes, "It will be a hard act to follow." Her enthusiasm and expertise have already accomplished the seemingly impossible, and she continues to generate yet other projects.

Newington Town Warrant

State of New Hampshire

NEWINGTON TOWN WARRANT

State of New Hampshire

TO THE INHABITANTS OF THE TOWN OF NEWINGTON IN THE COUNTY OF ROCKINGHAM AND SAID STATE QUALIFIED TO VOTE IN TOWN AFFAIRS:

YOUR ARE HEREBY NOTIFIED TO MEET AT THE NEWINGTON TOWN HALL ON TUESDAY MARCH 12, 1991, AT 11:00 A.M. TO ACT ON ARTICLES 1 AND 2.

The Polls will be open at 11:00 a.m. and close at 7:00 p.m. The Business portion of the meeting to act on Articles 3 through 14 will resume at 1:30 p.m. Saturday March 16, 1991.

ARTICLE 1. To choose in the manner provided by law: One Selectman for 3 years; One Town Clerk for 1 year; One Tax Collector for 1 year; One Treasurer for 1 year; One Trustee of Trust Funds for 3 years; One Fire Engineer for 3 years; One Police Commissioner for 3 years; One Library Trustee for 3 years; One Superintendent of Cemetery for 1 year; One Cemetery Committee Member for 3 years; One Sewer Commissioner for 3 years; Three Budget Committee Members for 3 years; Two Planning Board members for 3 years.

ARTICLE 2. (Recommended by Planning Board)

To see if the Town will vote to amend the Newington Building Code as follows:

Amendment 1. Delete the existing Section 5 and replace it by adopting the following national codes by reference, pursuant to NH RSA 674:52, (these codes shall not apply to one or two family dwellings):

BOCA National Building Code by the Building Officials and Code Administrators International, Inc., 1990 edition;

BOCA National Mechanical Code by the Building Officials and Code Administrators International, Inc., 1990 edition;

BOCA National Plumbing Code by the Building Officials and Code Administrators International, Inc., 1990 edition;

BOCA National Fire Prevention Code, by the Building Officials and Code Administrators International, Inc., 1990 edition.

The Life Safety Code (NFPA 101), by the National Fire Protection Association, Inc., 1990 edition;

The National Electrical Code (NFPA 70), by the National Fire Protection Association, Inc., 1990 edition.

Amendment 2. Delete the existing section 7, and replace it with a new section, consistent with NH RSA 674:34, empowering the Newington Board of Adjustment to act as a Building Code Board of Appeals, as follows:

The Newington Board of Adjustment shall have the power, upon an appeal filed with it by any person aggrieved by a decision of the building inspector dealing with the building code, to vary the application of any provision of the building code to any particular case when, in its opinion, the enforcement of the building code would do manifest injustice and would be contrary to the spirit and purpose of the building code and the public interest.

ARTICLE 3. To see if the Town will vote to authorize the Selectmen to apply for, receive and expend federal and state grants which may become available during the course of the next year, in accordance with RSA 31:95-b, and also to expend any money from other government unit or private sources to be used for the purposes for which the Town may legally appropriate money.

ARTICLE 4. To see if the Town will vote to leave the care and maintenance of Town Land and Buildings to the Selectmen.

ARTICLE 5. To see if the Town will authorize the Selectmen to remove the abandoned former summer cottage at Fox Point. (sometimes known as the mott house).

ARTICLE 6. To see if the Town will vote to save the Mott House at Fox Point from demolition. (by Petition).

ARTICLE 7. To see if the Town will provide that the Selectmen shall not sell or demolish any land or buildings owned by the Town of Newington without a specific vote of the townspeople authorizing the same at a duly warned Town Meeting and upon a warrant article specifically identifying the land or buildings to be sold or demolished. (by Petition).

ARTICLE 8. To see if the Town will vote to raise and appropriate the sum of \$10,000 to repair or replace the roof, windows, and doors of the Mott House at Fox Point for the purpose of securing it against the weather. (by Petition).

ARTICLE 9. To see if the Town will vote to adopt an ordinance prohibiting hunting on Town owned lands and to authorize the Selectmen to post appropriate notices on such Town owned properties. Conviction of violation of this ordinance shall be a violation subject to a fine of not more than \$500.

ARTICLE 10. To see if the Town will vote to authorize the Selectmen to dispose of any real estate acquired by the Town through Tax Collector's Deeds.

ARTICLE 11. To see if the Town will vote to authorize the Selectmen to hire money on credit of the Town in anticipation of taxes at a rate not to exceed the current bank rate.

ARTICLE 12. To see if the Town will vote the authority to expend accumulated interest from investment of sewer revenues to be applied as an offset for the 1991 sewer budget.

ARTICLE 13. To hear the report of the Budget Committee and to see what sum of money the Town will vote to raise and appropriate for all Town expenditures for the ensuing year.

ARTICLE 14. To hear the report of the Moderator on the election of Officers.

Given under our hands and seal this 15 day of February, 1991

Paul Kent, Chairman

John R. Mazeau

Margaret Lamson

BOARD OF SELECTMEN

We hereby certify and attest that on the 19th day of February, 1991, we posted a true and attested copy of the within Warrant at the place of meeting within specified and like copies at the South newington bulletin board and the Meeting House, and delivered the original to the Town Clerk.

BUDGET OF THE TOWN OF NEWINGTON, N.H.

BUDGET FOR TOWNS WHICH HAVE ADOPTED THE PROVISIONS OF THE MUNICIPAL BUDGET LAW

Keep in mind the entertaining programs coming up – the fourth Wednesday of the months of February through May, October and November. Everyone is welcome at the meetings. And if you want to officially join the dedicated force, it's only \$1.50.

Respectfully submitted,
Dorothy M. Watson

NEWINGTON CEMETERY COMMITTEE

On December 19, 1990, the Cemetery Committee met at the Town Hall to review the projects of the past year and outline plans for the next. All members were present.

Reference cemetery lot purchases, the Ad Hoc and Cemetery Committees met on April 14, 1990, at the request of the Selectmen, relative to Warrant Article 7 which was tabled at the March 1990 meeting. The Committee voted to recommend to the Board of Selectmen that as of July 1, 1990 the price per burial be increased to \$200 (\$100 to go into perpetual care and \$100 for general maintenance). It was also voted to revert back to the original vote of the Town that lots shall be sold only to bona fide residents. No problems are envisioned.

Vandalism by four-wheelers has become very noticeable. Although damage to the grounds can be rectified in the spring, this should not be happening, such as entranceways.

The water leak discovered in the cemetery turned into a major crisis when the water bill arrived! The old galvanized pipe had been there since 1912. After the extent of the leak was discovered, the water was shut off in September. The Selectmen will take care of this under town land.

Mr. Olson is still taking out overgrown shrubs at owner's requests and expense. He is advising people against planting new ones, particularly in the Southern Division. No shrubbery should be planted in this new section.

Mr. Locovozzi inquired as to disposition of frayed flags. These are checked by the Superintendent and removed on a continuing basis. Normally, all flags are removed by the end of October and disposed of appropriately.

The Trustees of Trust Funds and the Cemetery Committee met on January 2, 1991 for the purpose of further defining regulations governing perpetual care.

The budget of \$9,145.00 was approved.

Respectfully submitted,
Donald E. Beals, Chairman

NEWINGTON SCHOOL DISTRICT

1991

The State of New Hampshire

To the Inhabitants of the School District of the Town of Newington in the County of Rockingham and said State qualified to vote upon district affairs:

YOUR ARE HEREBY NOTIFIED TO MEET AT THE NEWINGTON TOWN HALL IN SAID DISTRICT ON SATURDAY THE 16TH DAY OF MARCH, 1991, AT 1:00 P.M. TO ACT ON THE FOLLOWING ARTICLES:

NOTICE: School District Officers are to be elected at the Town Meeting, March 12, 1991, in accordance with the Statutory Election Procedure adopted by the District at its February 23, 1962, annual meeting.

ARTICLE 1. To see what action the District will take in relation to the reports of agents, auditors, committees, or officers chosen.

ARTICLE 2. To see if the District will authorize the School Board to make application for, to receive and spend in the name of the District, such advances, grants in aid or other funds for educational purposes as may now or hereafter be forthcoming from federal, state, local or private agencies.

ARTICLE 3. To see if the Newington School District will appropriate the sum of Three thousand dollars (\$3,000) as contingency fund as provided under RSA 198:4-b. (Recommended by the Budget Committee).

ARTICLE 4. To see if the voters will ratify and approve a two (2) year collective bargaining agreement negotiated by the Newington School Board with the Association of Coastal Teachers/Newington which will require appropriations in fiscal year 1991-92 of One hundred ninety-nine thousand fifty-nine dollars (\$199,059), and further to see if the voters will vote to raise and appropriate the sum of Thirteen thousand one hundred seventy-nine dollars (\$13,179) for fiscal year 1991-92 which sum represents the increase in cost items for salaries and fringe benefits over the salaries and fringe benefits currently paid

to teachers in Newington School District.

ARTICLE 5. To see what sum of money the District will raise and appropriate for support of schools, for the payment of salaries of school district officials and agents, and employees and for the payment of statutory and other obligations of the District.

ARTICLE 6. To hear the reports of the Moderator on the election of the School District Officers.

GIVE DETAILED STATEMENT OF RECEIPTS ON OTHER SIDE

REPORT OF THE SUPERINTENDENT OF SCHOOLS

It is with pleasure that I submit my twelfth annual report to the citizens of Greenland, New Castle, Newington and Rye.

Among our highest priorities is the maintenance of an up-to-date curriculum in each of our subject areas. To accomplish this, a continuing review process has been established whereby one subject area is thoroughly assessed and updated each year. Typically, our in-service activities for the year are developed around that subject area and, often, updated materials and a new text series are recommended as a result of the study.

Last year science received the focus and the Science Curriculum Committee rewrote the curriculum and was instrumental in arranging some highly effective in-service activities for teachers. Among these was a well attended course taught by Rye Junior High School Science Teacher, Kelvin Dalton, and designed to improve the teaching of science. The response and the evaluation of the course content and also the effectiveness of Mr. Dalton as a mentor and a teacher of teachers.

In order to capitalize on Mr. Dalton's skills, a proposal has been made which would have Mr. Dalton conduct a series of workshops after school for classroom teachers. These workshops would be held twice a month from March through early June of 1991. The broad goal of the workshops is to help teachers gain confidence in their ability to teach science. The first session of the month will consist of the theme introduction, lecture and demonstration relative to the theme and suggested follow-up activities with students. The second session will allow time for a discussion of problems, successes and suggestions. Also, various teaching techniques will be reviewed and modeled. In addition, planning of actual classroom instruction will take place.

In addition, Mr. Dalton has made a commitment to be available at other times to consult with and assist teachers in the area of science instruction.

I have purposely been detailed in order to illustrate a professional growth process that can be enormously productive but is seldom utilized.

It is too often felt that in order to provide true growth potential for staff and to create real improvement in a situation, one needs to bring in

experts from outside of the system. As is true with most organizations, whether public or private, we have some very capable and talented people on our staff. It seems only logical to use those skills and talents to the fullest.

It is my hope that we can use the process that I have described as a model and tap other similarly talented members of our staff to take on like responsibilities.

While on the subject of curricula, I should also say that during this year, and probably next, the SAU 50 Social Studies Curriculum Committee is actively reviewing our entire social studies curriculum, grades kindergarten through eight. Through this effort, it is our intent to make our social studies curriculum more responsive to the needs of our students, focusing more heavily on geography and history and making sure that the content is relevant to our present world.

For the third consecutive year I would like to briefly mention the accreditation process which has involved four of our schools. As previously reported, the process consists of an intense program of self-evaluation involving the entire school staff. Following that, a team of professional educators spends three full days interviewing staff, parents, and school board members along with reviewing every facet of the school's operation. Three schools have completed this phase of the process and one will do so in the spring of 1991. The work does not end there. All of the recommendations that are made by the team then must be addressed by the staff to assure that when the five year review is conducted all of the recommendations have been considered. It is an ongoing process and one which is most helpful in assuring the continued effectiveness of the school and its programs.

I am pleased to say that effective January 1991 our Drug Abuse Resistance Education (DARE) program is in place in every school. Many months were spent planning and the police officers involved have committed a considerable amount of time and effort being trained as instructors in this most important endeavor. The program is of 17 weeks duration and involves grade 6 students. The program has proved most effective in other school districts and we are very excited about it here. It not only provides youngsters with the skills to make important choices, but it also brings together the student and the police in a non-threatening and positive setting.

Recently SAU 50 hosted foreign language teachers and guests from around the state for an in-service day. Highlighting the day's activities

was a presentation by Dr. John Rassias, a nationally known professor of foreign languages from Dartmouth College. Dr. Rassias has been featured on numerous television shows and has had feature articles published in a number of the world's most highly regarded newspapers and magazines. We were very pleased to have Dr. Rassias join us and we believe we have formed a lasting link with a very important and highly talented educator.

Nearly two years ago SAU 50 embarked on a program designed to improve staff knowledge and skills in the area of learning styles and teaching strategies. In order to do this, we contracted with Richard Strong, a noted and well respected educator. Mr. Strong conducted a week long work shop during the summer of 1989 attended by several of our teachers. Another workshop was conducted again last year in Portsmouth and again participation from SAU 50 was significant. We have engaged Mr. Strong to return during the 1991-92 school year to follow-up with the training and continue what we have started. Most, if not all, of the expenses of this effort will be covered through grant money.

Finally, I want to touch on a theme that we have adopted this year and I hope will continue to adopt each year in the future. American education has had its share of criticism over the past years for its alleged failure to adequately provide for our young people. Many lament for the "good old days" when children were taught the basics resulting in young people who could read, write and compute sufficiently to meet the standards of the day. We are still teaching the basics and most students have little difficulty performing to today's standards. However, some can not.

Why is this? What has happened to these students? Is the school failing this badly or are there other factors at work? I would suggest that in too many cases the school and the home have failed to achieve that informal partnership that is so critical for the successful development of a child. In my judgment schools have never provided effective comprehensive education for children when doing so alone. The moral, ethical and intellectual growth of children occurs not only because of good schools, but because those good schools can expect and actually receive a commitment of support from the home. Children are offered the best chance for academic success when the school provides the instruction and the home provides the monitoring and the support. Educating children requires this very important partnership. It requires working together and communicating. Children

need to sense that and they need to know that the mode is interested in them and in their education. To the degree parents' monitor children's diets and sleep habits, so too must they monitor and understand the progress of their education. The 1,000 to 1,100 hours per year that children spend in school pales in comparison with the 7,600 plus hours children spend away from the school setting. Reinforcement of the formal academic process must occur during those seventy-six hundred hours if effective education is to be realized. We are fortunate in SAU 50 to have so many concerned parents who do monitor their children's progress and who do communicate with the school. For those parents who wish to become more involved, I invite you to contact your school, talk with your child's teacher, question your child as to what they are doing in school and show your child that you are indeed genuinely concerned about their education. The stronger the bond between the home and the school, the more effective the educational process. I encourage you to stay involved.

Daniel C. Durgin
Superintendent of Schools

January, 1991

PRINCIPAL'S REPORT TO THE CITIZENS OF NEWINGTON

JANUARY, 1991

Dear Friends:

There can be no doubt that the year just concluded will be recorded as a most historic one. Could anyone have imagined the changes currently taking place? Most of us still cannot believe they are really happening, but a quick pinch reassures us the events are very real. Getting students ready for this different world as we approach the new century becomes a tremendous challenge. And one not singularly the responsibility of any institution but rather a partnership among us all.

Does this mean we should scrap the present processes and strategies? Certainly not! Can you envision when problem solving,, decision making, taking individual responsibility for self and social responsibility for others will not be part of the educational process? These have been our basics and will continue to be so in the years ahead.

Our mission then remains one where we nurture these abilities in your children through curriculum delivery and in keeping ourselves abreast of the latest in educational research through professional growth activities. Both of these are ongoing processes and the staff's involvement in the various kinds of offerings this past year would cover a blackboard.

Many of the programs attended were designed and implemented within the SAU through the Staff Development Committee which has a representative from your school. As a matter of fact, each staff member sits on at least one subject area committee as well as special task forces.

This system of curriculum committees supports the basic framework of instruction and sets general parameters within each academic discipline. Science and social studies were targeted for review and refinement during the calendar year. Through this mechanism we have selected and~adopted new learning systems f,or those learning areas as well as music. If all goes well, we plan to implement a new mathematics program in the fall. At present this process of curriculum updating should be concluded by 1993.

With the visiting team scheduled for May 5, 1991, the school accreditation process intensified during the year. An offshoot-of the self study was the formation of a Facilities Committee by the School Board. After numerous sessions during the summer and fall the Committee recommended to the Board a renovation plan for several of the existing systems and a building proposal to meet present storage and future instructional needs.

Not included in the format for facility alteration was the media center noted in last year's report. Plans are unfolding to equip the center prior to the year's end. The creation of this resource will give the students reference flexibility as well as the use of educational hardware to complement and supplement their classroom learning. In no way is this resource intended to supplant the use of the town Librarian in the school and/or the children's visits to the Langdon Library.

As news regarding Pease filtered down, discussion arose as to its direct affect upon the school program. Basically we were faced with a 25% reduction in students. This figure compares proportionately with the number in Portsmouth. Resulting from the potential loss were decisions to return to a single session kindergarten with subsequent realignments in the disciplines of art, music, and physical education. Accessibility to the-learning specialists was not altered in the reorganization.

Complementing the regular curriculum were several enhancement programs. Twelve students engaged in Newington's first Odyssey of the Mind team where they explored a solution to a predetermined problem developed by the National Organization. Since it was our maiden voyage, the group elected not to enter into the state competitions. However, this could change as the group begins its second year. Conceiving of a solution to a personal problem through an invention was at the heart of the Inventors program. Over 80% percent of the young people shared their remedy with fellow students and parents at an assembly. The affair even had judges. Everyone participating was a winner!

Social responsibility to children took a number of avenues. Parents generously gave their time on coaching, chaperoning, sharing expertise in classrooms, and organizing holiday functions. Others assisted in generating funds through activities like book fairs and contacting service agencies. This last item produced more than 50% of the money needed for the fifth and sixth grade conservation experience in the fall.

Local business and industry played a more involved role in the school during the past year. Their participation was reflected in either curriculum donations or being physically present to judge experiences like the Inventor's program.

Once again the linkage established among the different municipal agencies was perceptible in the collaboration between the police and school to commence the D.A.R.E. Project. Others continue to visit the school to convey safety messages as well as to share conservation concerns relative to the re-allocation of federal land.

The physical plant had several major items done to it. After thirty years of weathering and obvious care to extend its life, a new rubberized roof was put on. Painting in five classrooms was completed. Carpets were replaced in the new addition and the exterior trim reformed, caulked and stained.

In order to meet certain food service regulations and to correct deteriorating piping located under the cement slab in the kitchen, plumbers installed a food processing sink, air gaps, and repiped the drains to a direct line grease trap.

In an effort to enhance deliveries and maintain the grounds during the summer months, the school custodian worked each Friday. By doing so, he was able to perform certain restorations to playground equipment and grounds just not permitted in years past.

Have you seen the newly installed play apparatus? We would like to acknowledge and thank the Recreation Department for generating, organizing, and constructing the jungle gym once it arrived. The children have enjoyed it immensely!

Administratively, we had a few things happen. A computer system was purchased to facilitate the numerous paper functions related to running a school. Currently being organized is the interfacing of this system with the Superintendent's office. Eventually we will have the capacity to transmit data back and forth. However, before the hook up could occur a second telephone line was needed - something that had been previously planned thus making communication with the school more expedient.

After a review process of two years, job descriptions for each position were updated and approved by the School Board.

A number of policies were initiated addressing issues such as discrimination, no smoking in public buildings, and chemical dependency to name but a few. It seems as if the responsibilities of the school just continue to grow and grow.

Once again, the community has found the school facility to be a pleasant resource for their programming. Consequently, the building is scheduled by local industry, municipal and school agencies four evenings a week. In the future, as the media center develops with its variety of educational resources, a plan could be devised to conduct evening study sessions for the students of Newington.

With the closing of Pease it has been a most unusual year. And if I may say so, a very emotional one when you consider the closeness of our relationship with the children and their families. It has been a good association and I do believe each of us at the school has benefitted from it.

As always we encourage you to become an active member in this process of formation and assimilation. And with the creation of the Newington School Support group you now have the vehicle to do so. Just remember your involvement is but a meeting away!

REPORT OF THE HIGH SCHOOL PRINCIPAL

I am pleased to submit this information for the district's annual report.

Portsmouth High School will be evaluated for the purpose of continued accreditation by the New England Association of Schools and Colleges in the Fall of 1992. The key to this process is the self-study conducted by the staff which precedes that evaluation. We have begun that process already with the formation of committees on school philosophy and school and community. These two reports are really the springboard for all that follows. It is our hope that these committees will complete their work by this spring. The next major area of review and analysis is the different learning area. This basically is a look at our curricula offerings for the purpose of identifying strengths and weaknesses. Our goal is to complete the learning area reports by December 1991.

Staff committees will then review the various standards to be evaluated. These standards include instruction, student services, educational media, staff, facilities, community support, school climate, and assessment of progress.

Community members are desired for many of these committees. If you are interested, please contact the school. Although this process is long and is hard work, it is very worthwhile in renewing ourselves and in getting the viewpoint of an outside agency regarding Portsmouth High School.

For the past two years, a number of Portsmouth High School staff members have been attending workshops on teaching styles/learning styles conducted by Richard Strong. We have long known that not all students learn in the same way and not all teachers teach in the same way. We are hoping that as a result of these workshops, the various teaching and learning styles can be made more compatible.

One of our long standing goals has been to reduce the high school dropout rate. I am pleased to report that for the 1989-90 school year, the dropout rate was an extremely low 2.1%. I believe there may be a number of factors which account for this very positive decline. The downturn in the economy would tend to encourage students to stay in school. The reduced student population also allows us to focus more attention on the students. For example, the home of every absent student is contacted each evening to be certain parents are aware of the absence. In addition, we have a number of support services available

to intercede with the potential dropout. It is most heartening to see these programs have an impact on keeping kids in school.

In today's society, there are many social factors which are affecting the adolescent. We are fortunate to have at Portsmouth High School a Comprehensive Health Center which will help our students deal with all the pressure of school, home and peers.

This center is staffed by a substance abuse counselor, social worker, mental health clinician, and crisis counselor in addition to our already existing guidance and nursing staff.

Much of this has been made available through grants, primarily from the Hospital Foundation. Remodeling has been completed to provide a suite of offices and conference rooms for the center. Again, this was all made possible through private donation.

The new athletic complex at the high school is now a reality. This past fall season, we were able to have a number of sporting events under the lights. I believe this resulted in renewed fan interest as games were well attended. This is a great thing to see.

It is also important to note that the complex is intended for community use. Please make it a point to stop by to see what is available.

In closing, I would just like to reiterate that I consider the student from the sending districts to be an integral part of Portsmouth High School. They contribute a great deal, and hopefully, receive as much in return.

I encourage you to visit at any time and ,certainly, feel free to call with any questions, concerns or comments.

INDEPENDENT AUDITOR'S REPORT

Newington School Board
Newington School District
Newington, NH 03801

I have audited the accompanying general purpose financial statements of the Newington, New Hampshire, School District as of and for the year ended June 30, 1990, as listed in the table of contents. These financial statements are the responsibility of the District's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards and the additional standards and requirements for financial and compliance audits as set forth in Standards for Audit of Governmental Organizations, Programs, Activities and Functions. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In accordance with the practices following by other municipal entities in the State (Note I – Accounting Policies), the combined financial statements referred to above do not include financial statements of the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles.

In my opinion, except for the omission of the financial statements described above resulting in an incomplete presentation, the combined financial statements referred to above present fairly the financial position of the Newington, New Hampshire, School District at June 30, 1990, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles.

My examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The accompanying supplemental combining financial statements listed in the table of

contents are presented for purposes of additional analysis and are not a required part of the combined financial statements of the Newington, New Hampshire, School District. The information has been subjected to the auditing procedures applied in the examination of the basic financial statements and , in my opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.
